## About The Author

Anthony Galeano is the president of Flash Previews, a consulting company. Being in this field for 20 years, he has had his fair share of ups and downs. From consultation for choosing the right business to create online marketing strategies and advising business owners on the ins and outs, his expertise involves everything. He encourages his readers to set on a journey of self-discovery and not let the world define their true potential. He highlights the importance of having a planned life and the consequences he bore for never strategizing his decisions and talks about his journey of manipulation and exploitation, urging the readers to make his life a living lesson for their long term prosperity. Anthony further elaborates on him being careless about his physical and mental health to teach readers how health is indeed wealth.

## About The Book

This book is for everyone who is lost or is not able to comprehend a purpose in life. It's a perfect guide for people who are told they are good for nothing and are in search of some motivation in life. This book will help you unleash the real you with real-life examples of the author and some inspiration from your favourite celebrities; people you idolize. Readers are encouraged to start rebuilding themselves even if they didn't have any control over their lives earlier; it's never too late to restart and show the world what you are capable of.
